# “Biblical Insights for Mission in a New Global Context”

Presented by  
**Dianne Bergant, C.S.A.**

A shift in understanding mission is taking place today. The betterment of human life and the redemption of human beings, the focus of much of our mission activity, is now enhanced by being placed within the broader context of the “transfiguration of the whole of creation.” If the mission of God includes all of creation, and if our duty toward nature is an essential part of our faith, what might this ecosensitive mission of God require of us today?
